Desk/1000 series

Interact with customers at the counter with the simplicity of a compact device

- ▸ **Speed up the payment for Desk/series terminals**
- ▸ **Manage customer interface for any type of payment**
- ▸ **Integrate with any counter space thanks to a compact and nimble design**

ingenico
a Worldline brand

Available in two variations, the Desk/1200 focuses on contactless capture and PIN entry, while the Desk/1500 can accept all traditional payment methods. Nimble in design, the small Desk/1000 series takes up a limited space on a potentially busy countertop.

Optimized checkout time
Payment validation is better when synchronised with the customer and however they want to pay. Equipped with a clear contactless zone, large keypad and an advanced consumer display, the Desk/1000 series enhances usability and accelerates the checkout.

Designed for a limited space
The compact Desk/1000 series fits easily on any counter, with options for either a mounted or unmounted terminal to suit the available desktop space. To save space, the Desk/1000 series can act in place of the larger Desk/5000 terminal.

Highest security
The Desk/1000 series is certified and fully compliant with the latest global and local PCI regulations to ensure long-term payment security compliance – protecting data for years to come.

### Fast and unified integration
With plug-and-play installation and USB connection, the Desk/1000 series connects to any Desk/series device, offering a speedy and unified solution.

Compatible with Ingenico's suite of services
The Desk/1000 series works in unison with Ingenico's supporting service platforms, meaning merchants will have access to business services such as back office reporting and e-receipt management. Software updates and day-to-day support deliver a hassle-free experience for those using this innovative range.
